

Product Data Sheet

Use this sheet to confirm engineering requirements and tolerances. The following information outlines performance characteristics and design data. Ensure all referenced standards are up to date. Please review the specifications and material composition listed below. This report extract is prepared for design-verification audits. This section details the configuration and parameter set for the product. All data entries are traceable to design revision history.

Product ID:	LK-890B
Document No.:	PR-432

Prepared by: Jan Kowalski | Approved by: Laura Rossi | Date: 2025-05-28

Unit Type	Hydraulic Power Unit	Operating Pressure	180 bar
Flow Rate	75 L/min	Voltage	230 V / 50 Hz
Pump Type	Vane Pump	Cooling	Air-cooled oil radiator
Oil Type	HLP 46		

Archive this summary for future design-change management. Material choices and process data have been verified for compliance. Document control numbers are included for traceability. This summary reflects the latest revision of the product data. Refer to parameter table for operating ranges and tolerances.
