

Product Data Sheet

Confirm that performance ranges comply with project requirements. Use this sheet to confirm engineering requirements and tolerances. Please review the specifications and material composition listed below. The following information outlines performance characteristics and design data. Entries include both mechanical and electrical specifications. This data sheet provides key specifications and material details.

Product ID:	CN-150C
Internal No.:	PR-879

Prepared by: Anna Nowak | Approved by: Anna Nowak | Date: 2024-12-14

Unit Type	Hydraulic Power Unit	Design Pressure	180 bar
Throughput	75 L/min	Voltage	230 V / 50 Hz
Cooling	Air-cooled oil radiator	Oil Type	HLP 46
Total Weight	180 kg	Service Interval	500 h

Document control numbers are included for traceability. Ensure glossary terms match the engineering nomenclature. All summary comments have been recorded in the revision log. Ensure that the listed materials are approved for the application. This summary reflects the latest revision of the product data.
